### **BCB Bancorp, Inc. Reports Earnings of \$5.5 Million in First Quarter 2019: An Increase of 18 Percent Over the First Quarter of 2018**

BAYONNE, N.J., April 18, 2019 -- BCB Bancorp, Inc. (the "Company"), Bayonne, NJ (NASDAQ: BCBP), the holding company for BCB Community Bank (the "Bank"), today reported that increases in total interest income and a decrease in the provision for loan losses contributed to first quarter 2019 profits. Net income increased \$819,000, or 17.7 percent, to \$5.5 million for the first quarter of 2019, compared with \$4.6 million for the first quarter a year ago. In the preceding quarter, the Company earned \$5.2 million.

"We continued to deliver strong financial results and achieved an 18 percent increase in profits over the first quarter a year ago," stated Thomas Coughlin, President and Chief Executive Officer. "Solid earning assets and deposit growth resulted in higher net interest income. That along with sound credit quality and a larger asset base as a result of the IAB acquisition completed a year ago contributed to our first quarter results. We are well positioned to maintain our growth strategies as we continue to look for opportunities to expand our presence in both New Jersey as well as surrounding markets."

The IAB acquisition, which was completed during the second quarter of 2018, added approximately \$221.9 million in assets, \$178.4 million in deposits and \$182.6 million in net loans.

- Tangible book value was \$11.58 at March 31, 2019.
- Earlier this month, the Company's Board of Directors declared a regular quarterly cash dividend of \$0.14 per share. The dividend will be payable May 24, 2019, to common shareholders of record on May 10, 2019.
- The Company issued \$6.3 million of private placement common stock which closed in February 2019 and \$5.3 million of preferred series G stock, which was issued in January 2019. The Company had also issued \$33.5 million of subordinated debt in July 2018 which, for regulatory purposes, is treated as Tier 1 capital for the Bank and Tier 2 capital for the Company.

#### **Balance Sheet Review**

Total assets increased by \$636.1 million, or 30.5 percent, to \$2.718 billion at March 31, 2019 from \$2.082 billion at March 31, 2018 and increased by \$43.7 million, or 1.6 percent, compared to December 31, 2018. The increase in total assets from March 31, 2018 included the acquisition of IAB, which added approximately \$221.9 million in assets.

Loans receivable, net increased by \$542.5 million, or 30.7 percent, to \$2.307 billion at March 31, 2019 from \$1.765 billion at March 31, 2018 and increased by \$28.6 million, or 1.3 percent, from \$2.278 billion at December 31, 2018. The organic growth in loans over the first three months of 2019 represented increases of \$26.5 million in commercial real estate and multi-family loans, \$6.7 million in construction loans, \$1.9 million in commercial business loans, \$100,000 in residential one-to-four family loans, partly offset by decreases of \$6.0 million in home equity loans and \$78,000 in consumer loans.

Total cash and cash equivalents increased by \$56.2 million, or 40.9 percent, to \$193.5 million at March 31, 2019 from \$137.3 million at March 31, 2018, and decreased by \$1.7 million, or 0.9 percent compared to \$195.2 million at December 31, 2018. The Company's level of cash and cash equivalents is a part of its strategy to maintain strong levels of liquidity. Total investment securities decreased by \$1.4 million or 1.1% to \$125.9 million at March 31, 2019, from \$127.3 million a year earlier and decreased by \$1.1 million, or 0.9 percent, to \$125.9 million compared to \$127.0 million three months earlier.

During the quarter ended March 31, 2019, the Company adopted Accounting Standards Update ("ASU") No. 2016-02 - Leases, requiring on-balance sheet reporting for all operating and financing leases, which resulted in the recording of \$16.0 million in operating and financing lease right-of-use assets and a corresponding \$16.0 million in operating and financing lease liabilities associated with the implementation of the standard.

Deposit liabilities increased by \$497.3 million, or 29.4 percent, to \$2.189 billion at March 31, 2019 from \$1.691 billion at March 31, 2018, and increased by \$7.9 million, or 0.4 percent, when compared to \$2.181 billion at December 31, 2018. Increases over the first three months of 2019 included \$43.2 million in certificates of deposit, excluding listing service and brokered deposits, \$26.4 million in money market checking accounts, \$4.3 million in transaction accounts and \$2.4 million in savings and club accounts. The increases provided by the growth in these accounts was somewhat offset by reductions in the Company's listing service and brokered certificate of deposits, which saw decreases of \$1.8 million and \$63.6 million, respectively. The Company uses listing service and brokered certificates of deposits as additional sources of deposit liquidity, which totaled \$35.1 million and \$184.4 million, respectively, at March 31, 2019.

Debt obligations increased by \$78.3 million or 38.4 percent, to \$282.4 million at March 31, 2019 compared to \$204.1 million at March 31, 2018 and remained flat when compared to December 31, 2018. Debt obligations consisted of both Federal Home Loan Bank ("FHLB") borrowings and subordinated debt balances. The weighted average interest rate of FHLB advances was 2.18 percent at March 31, 2019. The issuance of subordinated debt was to maintain adequate capital ratios for further growth. The fixed interest rate of subordinated debt balances was 5.625 percent at March 31, 2019.

Stockholders' equity increased by \$39.3 million, or 22.2 percent, to \$216.7 million at March 31, 2019 from \$177.4 million at March 31, 2018 and increased by \$16.5 million, or 8.2 percent, compared to \$200.2 million at December 31, 2018. The increase in stockholders' equity from March 31, 2018 was primarily attributable to an increase in additional paid-in capital of \$17.4 million from common stock and preferred stock issued as part of the acquisition of IAB, the Company's issuance of \$6.3 million of private placement common stock which closed in February 2019 and the issuance of \$5.3 million of preferred series G stock, which was issued in January 2019. Retained earnings increased by \$7.1 million to \$40.8 million at March 31, 2019 from \$33.7 million at March 31, 2018, due primarily to the increase in net income, net of dividends paid.

#### **First Quarter Income Statement Review**

Net interest income increased by \$4.5 million, or 27.1 percent, to \$20.9 million for the first quarter of 2019 from \$16.4 million for the first quarter of 2018. The increase in net interest income resulted primarily from an increase in the average balance of interest-earning assets of \$662.0 million, or 33.6 percent, to \$2.629 billion for the first quarter of 2019 from \$1.968 billion for the first quarter of 2018. There was an increase in the average yield on interest-earning assets of 38 basis points to 4.64 percent for the first quarter of 2019, from 4.26 percent for the first quarter of 2018. There was also an increase in the average balance of interest-bearing liabilities of \$574.9 million, or 35.2 percent, to \$2.208 billion for the first quarter, from \$1.633 billion for the first quarter a year ago, and an increase in the average rate on interest-bearing liabilities of 63 basis points to 1.73 percent for the first quarter, from 1.10 percent for the first quarter a year ago.

Net interest margin was 3.18 percent for the first quarter of 2019 compared to 3.24 percent in the preceding quarter and 3.34 percent for the first quarter a year ago. "The decrease in the net interest margin was the result of the rising interest rate environment, with the increase in the cost of funds outpacing the return on interest earning assets for the short term," said Coughlin.

Total non-interest income decreased by \$1.7 million, or 51.0 percent, to \$1.7 million for the first quarter of 2019 from \$3.4 million for the first quarter of 2018. The decrease in total non-interest income was primarily related to a decrease in the amount of other non-interest income of \$2.2 million, or 97.6 percent, to \$53,000 for the first quarter from \$2.2 million for the first quarter a year ago. The decrease in other non-interest income was the result of \$2.2 million in proceeds from a legal settlement recognized in the first quarter of 2018.

First quarter total non-interest expense increased by \$1.8 million, or 14.7 percent, to \$13.8 million from \$12.0 million for the first quarter of 2018. The increases in non-interest expense over the prior year were largely attributable to the inclusion of IAB expenses since the merger in April 2018. These increases in total non-interest expense were partly offset by a decrease in merger-related costs, of which \$145,000 was recognized in the first quarter of 2018 with no comparable expense during the first quarter of 2019.

The income tax provision increased by \$604,000, or 32.8 percent, to \$2.4 million for the first quarter of 2019 from \$1.8 million for the first quarter of 2018. The increase in the income tax provision comes as a result of higher taxable income for the first quarter of 2019 as compared to that same period for 2018. The consolidated effective tax rate for the first quarter of 2019 was 31.0 percent compared to 28.4 percent for the first quarter of 2018. The higher effective tax rate in the current period primarily relates to an increase in the New Jersey corporate business tax of 2.5 percent which was enacted July 1, 2018 and effective retroactively to January 1, 2018.

### **Asset Quality**

The provision for loan losses decreased by \$453,000, to \$889,000 for the first quarter of 2019 from \$1.3 million for the first quarter of 2018. Non-accruing loans improved to \$5.7 million, or 0.24 percent of gross loans at March 31, 2019, compared to \$7.2 million, or 0.31 percent of gross loans at December 31, 2018, and \$10.6 million, or 0.60 percent of gross loans, a year earlier. Non-accruing loans exclude \$7.0 million of Purchased Credit-Impaired loans acquired through the merger with IAB.

Performing troubled debt restructured ("TDR") loans that were not included in nonaccrual loans at March 31, 2019, were \$23.1 million, compared to \$22.5 million at December 31, 2018 and \$21.4 million at March 31, 2018. Borrowers who are in financial difficulty and who have been granted concessions that may include interest rate reductions, term extensions, or payment alterations are categorized as TDR loans.

The allowance for loan losses was \$23.0 million, or 405.7 percent of non-accruing loans and 0.99 percent of gross loans, at March 31, 2019 as compared to an allowance for loan losses of \$22.4 million, or 309.6 percent of non-accruing loans and 0.97 percent of gross loans, at December 31, 2018 and an allowance of \$18.3 million or 172.7 percent of non-accruing loans and 1.03 percent of gross loans, a year ago. The decline in the allowance as a percentage of gross loans from March 31, 2018 was primarily driven by the addition of IAB acquired loans with no allowance for loan losses as these loans were recorded at fair value at the acquisition date. The Company's outstanding credit mark recorded on acquired portfolios of \$238.5 million at March 31, 2019 totaled \$6.1 million at March 31, 2019. The Company's combined coverage of allowance for loan loss and credit mark on the acquired portfolios totaled \$29.1 million, or 1.25 percent of the overall loan portfolio, at March 31, 2019. Net charge-offs were \$244,000 in the first quarter of 2019, compared to \$34,000 of net recoveries in the fourth quarter of 2018 and \$380,000 in the first quarter of 2018.
